Fantastic speakers
Motivation
Exciting Promotions

Inspirational Teaching
Recognition of Achievements
Fun and Entertainment

János Demeter

János comes from Hungary. He was a very successful ice skater, and he competed in several European ice skating championships. After turning professional, he joined the Holiday on Ice revue where he met his future wife Rachel who is from the United Kingdom. Their family has grown over the years, and now they have four wonderful sons. After being introduced to the Amway business he resigned from the revue. János was determined to provide a better lifestyle for his family, so he focused completely on building the business. János & Rachel's hard work and dedication paid off, as they built their business to Diamond and beyond.

Today they live with their four sons in a new, beautiful home in Atlanta, USA, and enjoy the fantastic lifestyle the business has given them. They are able to spend a lot of time together with their sons, and enjoy traveling around the world as a family.

Despite now having reached the amazing level of Founders Executive Diamonds, János & Rachel continue to build the business. For many years they worked very hard building their network but nowadays János says: *"If I had known before how rewarding this would be, I would have worked three times as hard"*.

Mike Wilson

Mike competed on the international tennis circuit and was head professional of several major clubs in Southern California. Carla was a bookkeeper and worked in retail management. "Even at the \$25 or \$30 an hour I made at the time, we realized we would never be personally free that way. It was difficult to see how we could start a family without both our incomes. When he looked at the business, Mike was teaching tennis from 7 a.m. to 10 p.m. "What do you want from the business?" I was asked. "Everything." "When do you want it?" "Yesterday." We saw that if we make this work it would give us the financial options we desired plus the

time to start a family. We didn't even realize back then just how much we would love the business."

"The biggest benefit of this business is the personal freedom," says Carla. "Personal freedom to be a work at home husband and wife, to be mother and father for our children."

Tentative agenda
