

## **BUSINESS BUILDING SEMINAR**

***With Emerald ABO from Finland Ben Jaskari***

Ben use to be a shipbuilding engineer. He saw this concept in 1999 in the USA while he was working and studying there. He saw the business as “too American” and tried to forget the whole thing. The decision to build came at a weekend seminar in 2001. After this he built as single to Platinum to get better quality to life. On this journey he met a young woman in the business and one of his dreams became fulfilled.

Anina was actually a nutrition technician but worked as a guard. When she saw the business in early 2002, she was a single mother with two children. The reason she built the business on her own to Silver was that she saw that she could give her children everything she had not got. She also saw that she could help other families to see other choices in life and security, more than the conventional job could give. She has now been free from her daily job for 5 years and loves the time she can spend with the children.

Today Ben & Anina speak at many seminars. They build the business together to fulfil their dreams and to have more choices in life and quality time with the family. Today they have four children, Benjamin, Lotta, Oliver and Shira.

**Saturday , 07.09.2013**

**Rakvere Spordikeskus**

Kastani puiestee 12, 44307 Rakvere

**Main Session 14.00-18.00**
