

TREVOR LOWE

Double Diamond from United Kingdom

Trevor built the business to Double Diamond with his partner Jackie in 5 years.

Trevor was a bio-chemist and was working in a job he disliked intensely, so when friends in the USA introduced him to the Amway business he saw an opportunity to be free. He realised that the principle of helping others to be successful made sound business sense and was able to give up his job within the first year of starting to build the business. His drive and determination saw him and Jackie build the largest Amway business in the UK in a very short period of time. Trevor's belief in the business is second to none and he is very excited about the future. As a former bio – chemist, he has a special interest in and is an expert on the Nutrilite range of products.

He lives a Diamond lifestyle, sailing throughout the summer on his yacht and he is very interested in racehorses. He has owned several racehorses of his own and also ran a successful breeding programme at his stud farm.

He has two daughters who have successful careers and families of their own. They are also part of his flourishing international business.

Trevor is a great leader and teacher who has built a huge international network. He has businesses in the UK, France, Scandinavia, Ukraine, Russia, India and South Africa to name but a few

Тревора верит, что этот бизнес непревзойден и у него большое будущее. Как бывший биохимик он имеет большой интерес, а также является экспертом по ассортименту и продукции Nutrilite.

Его стиль жизни соответствует Бриллианту - путешествует на своей яхте в течение всего лета, а также имеет большой интерес к скаковым лошадям. Он сам владел несколькими из них и управляет успешной программой развития на своей конной ферме.

У Тревора есть две взрослых дочери, которые также являются частью его процветающего международного бизнеса. Тревора - отличный лидер и замечательный учитель, который построил огромную международную сеть. Он имеет бизнес в Великобритании, Франции, Скандинавии, Украине, России, Индии, а также в ЮАР
